

JAGDISH KUMBHAR

Solapur, Maharashtra | kumbharjagdish1714@gmail.com

8261804880

[Portfolio](#) | [LinkedIn](#)

A fresher who wishes to equip myself with additional skills and hone my leadership skills by working with a team that enables me to develop and work hard. I would like to enhance my technical and soft skills by taking up challenging assignments and expanding my knowledge

❖ PROJECTS

1. E-VOTING SYSTEM :-

- This project was developed using PHP, CSS, and HTML. It includes both an admin and user interface. Users can vote for their favorite candidate on the user side.

[GitHub](#)

2. Personal Voice Assistant :-

- I created a personal voice assistant named JARVIS, developed using Python's inbuilt libraries. It performs tasks based on the commands given by the user.

[GitHub](#)

3. Personal Portfolio :-

- A personal portfolio website was developed using HTML, CSS, JS, and Bootstrap. It's a responsive website.
